COVID-19 Vaccines for Kids

COVID-19
CORONAVIRUS

Vaccine Facts:

- COVID-19 Vaccines are **safe** for children 6 months and older
- Children get a **small amount** of the COVID-19 vaccine.
- Children **cannot** get COVID-19 from the vaccine
- Vaccines teach your child's body **how to fight the COVID-19 virus**
- COVID-19 vaccines do **not** cause fertility problems or issues

Find local COVID-19 vaccine clinics at:

vaccines.gov

Vaccine Side Effects:

Your child might have mild side effects:

- Pain in the arm where they got the vaccine
- Feeling tired
- Headache
- Low fever or chills
- Muscle or joint pain

These side effects are **normal** and **stop after a few days.** They show that the vaccine is working.

Ask your child's doctor if you have questions.
